

CERTIFICATION OF TEACHING EXPERIENCE

Dr. Sari Saba-Sadiya

has successfully completed the 2025 **GRADE Brain Teaching Training Program**, fulfilling all training requirements.

The **GRADE Brain Teaching Training Program** is an intensive didactic program which trains participants in curriculum development for university and graduate-level students with a focus on effective presentation, communication, science and storytelling, and teaching methodologies.

As part of the program requirements, **Sari Saba-Sadiya** has taught the following educational course, attended by master's, doctoral candidates and postdocs, with excellent performance and feedback:

Workshop: Modelling Cognitive Functions with Artificial Neural Networks

The class addressed how to **use Artificial Neural Network** to investigate brain processes. During the class participants familiarize with **Net2Brain toolbox** using Python environment, including a **hands-on** demonstration using Google Colab. Participants were also encouraged to bring their own experimental data for exploration, and you had the opportunity to get individual feedback and suggestions.

For a total of **4 teaching hours**.
